is neither a gamble nor an experi-
ment, nor anything else that may or
may not pay out.

KERMAN is a certainty, a country
already producing abundantly, a com-
munity long since through the experi-
mental stage, providing absolute
safety for homeseeker and investor,
supporting now hundreds of prosper-
ous farmers and their families.

KERMAN has a productive soil, a
producing climate, and plenty of
cheap water for irrigation—a com-
bination that cannot fail to produce
wealth for the farmer, if he does his
share—AND IT DOES.

KERMAN produced the first full
carload of peaches shipped from the
San Joaquin valley in 1911.

KERMAN orchards and vineyards
the past season produced hundreds
of tons of raisins, dried peaches and
apricots, besides enormous quantities
of green fruit and grapes shipped
for table and canning purposes.

BIG MILLING OF
FIFTY DOLLAR ORE
IS CONTEMPLATED

LEASE ON THE CRESCENT AT
MANHATTAN READY TO TAP
THE ORE BODY

Special to the Bonanza

MANHATTAN, August 24.—From a
depth of 30 feet Merion and Cant-
well by the first of the coming
month will tap their giant ore body
in their lease on the Crescent mining
property. They have sunk one of the
best shafts in the district, with two
compartments, timbering it securely
and permanently. At 30 feet they
have put out a south crosscut and
are 18 or 20 feet from the foot of
their shaft. According to the terms
of their lease they could not stop
out the ore surrounding their work-
ing shaft, hence they sunk a new
one separate from the shaft where
the find occurred and in the country
rock. However, it will cut the ore
body on its rake at a little lower
depth, away above 100 feet.

The formation is a schist and very
blocky, yet it carries gold and pans
some all through. It contains small
seams not unlike those in the ore
body proper.

When the leasers got into their
shaft by screening and sorting out
the large pieces of waste they will
have an immense milling of probably
\$60 ore. That is what their first
milling averaged. Some was low,
but the specimen stuff in the seams
brought the whole thing up. When
it is considered that the blocks are
large and the seams are small, as
well as the further fact that the ore
body is of enormous size, the sig-
nificance of this milling average will
be appreciated. In short, it gives
every promise of being one of the
big things of Manhattan, which is
saying a great deal.

The ore is not quartz but schist en-
riched by spar seams. In this re-
spect it is very similar to the Big
Four. One difference, however, is
that the find is about 15 feet from
a line contact, which furnishes
something to sink upon in following
the ore into the earth.

AMUSEMENTS

Butler Theater

Tonight's Butler program is as fol-
lows: "Over the Divide," a Lubin
western drama; "Auntie's Romance,"
a Vitagraph drama featuring Mr.
Maurice Costello and Miss Florence
Turner in a very beautiful picture;
"The Speed Demon," a Biograph farce
comedy. The demon owns a "near"
racing car and wishes to enter the
Santa Monica races. He catches a
hook, whom he induces to put every
dollar he has on his (the demon's)
chance of winning. He manages to
get into the race and by the time
he has finished the run, night has
fallen and the spectators have gone
home. It is a comedy full of laughs
from start to finish.

"His Own Fault" is another com-
edy picture constructed for laughs
only.

Sunday "The Stranded Actors," a
great comedy.

Matt Murphy of Goldfield is spend-
ing today with friends in Tonopah.
